

# Geomardy signs an MOU with Helms of Malaysia

Kuala Lumpur, 22 June 2017 – Helms Geomarine Sdn Bhd (Helms) and Geo Marine Dynamics (I) Pvt. Ltd. (Geomardy) recently signed a Memorandum of Understanding (MOU). The MOU signals a commitment by both companies to explore new opportunities available within the specialized geotechnical engineering and environmental industries in Malaysia and India and the same can be expanded to other countries within the Asian region.

HELMS is a Malaysian-based geotechnical engineering company specializing in marine coring, sampling and in-situ soil testing and engineering analysis, serving the Malaysian and South East Asian markets.

GEOMARDY is an Indian-based company specializing in a multitude of geotechnical, geophysical, environmental, field, lab testing, analysis and providing solutions by inter disciplinary approach for south Asia market.

According to this MOU, both companies intend to jointly pursue potential business opportunities in the area of geotechnical, engineering and

environmental solutions using the infrastructure and expertise of available within each party for the Asian market.

Dato' Ir. Mohd Helmi Zulkawi, Helms' Technical Director, said: " Helms has recently made substantial capital investment on specialized coring and in-situ testing tools that are now based in Malaysia to better serve the clients. I hope that this MOU signing event will lead Helms into the high-end area of value engineering and environmental solutions, taking advantage of the cooperation with Geomardy."

Srinivasa Raju the CEO of Geomardy, added : "Geomardy is looking forward to working with a company such as Helms Geomarine, and we are confident that there will be the opportunity to jointly pursue business potential in the sectors as envisaged using the infrastructure, established networking and technical expertise available within the two companies."
